Building wrap shown dashed

Notched flashing fixed with 12g x 25mm type T17 or 4.8mm aluminium rivets every rib

Climaseal coated self drilling 12g x 65mm tek screw
Dimond Brownbuilt 900 roof cladding (specify thickness and coating)

Roofing underlay and netting shown dashed

DHS girt

Line of structure

Notes:
- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
- Leave foam out if ventilation is required.
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
