200m high wind speed areas and higher or pitches below 10º

130mm min. medium wind speed areas or pitches greater than 10º

200mm min. high wind speed areas and higher or pitches below 10º

Dimond Brownbuilt 900 roof cladding (specify thickness and coating)

Climaseal coated self drilling 14g x 75mm T17 screw every rib

0.55mm notched barge flashing

Roofing underlay and netting shown dashed

Sheet lipped

Soffit

0.55mm flashing to cover 2 crests

Notes:
- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
