with 4.8ø rivets @ 1000mm max.
c/c

0.75mm continuous zincalume
folded clip

Pan head fixings @ 600 centres

Wall cladding

Notes:
- Foam closure strip only required if bird or vermin proofing is
  required, or if in a high wind area, there is a risk of windblown
  moisture entering the building.
- These details are suitably fixed to allow for a theoretical
  thermal movement of up to 10mm. For thermal movement
greater than this a clipping system should be considered.
