20mm thick cavity battens
Dimond Brownbuilt 900 wall cladding (specify thickness and coating)
M6 x 50 Roofzip pan fixed
Foam closure strip on top of roofing (see note below)
Notched flashing fixed with M6 x 65 Roofzip
Roofing underlay and netting shown dashed

Continuous cavity drainage closure strip
Sheet lipped
Dimond high-span steel purlin (specify size)

Notes:
- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
- Leave foam out if ventilation is required.
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
