

0.55mm Flashing (specify coating)
Fixed with 2 x M6 x 25 Roofzip to a
Dimond DD630 thermal expansion
flashing clip every 2nd pan.

Dimondek® 630 cladding (specify
thickness and coating)

Wall cladding stop ended

Foam closure strip on top of
cladding

100mm min.

Continuous clip fixed with 12g x
30mm hex head tek screw

Dimond hi-span steel purlin

Wall cladding (specify thickness
and coating)

Dimond hi-span steel purlin
(specify size)

Building wrap shown dashed

Notes:

- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.

Original Size A4
