Permanent wall cladding that's not easily removed

Building wrap shown dashed

Notched flashing folded and fixed to Dimond DD630 thermal expansion flashing clips with 2 x M6 x 25 Roofzip

Dimondek® 630 roofing (specify thickness and coating)

Roofing underlay and netting shown dashed

Foam closure strip on top of roofing (see note below)

Continuous clip fixed with M6 x 25 Roofzip

Supporting steel structure

Dimondek 630 roofing stop ended

Dimond hi-span steel purlin (specify size)

Notes:
- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
