Structure

Building wrap shown dashed

Wall cladding (specify thickness and coating)

Foam closure strip under roofing
(see note below)

Apron flashing fixed with M6 x 25
Roofzip to a Dimond DD630
thermal expansion flashing clip
@1000mm centers.

Roofing underlay and netting shown dashed

Continuous clip fixed with M6 x 25
Roofzip

Purpose made apron flashing

Dimond hi-span steel purlin

Dimond hi-span steel purlin
(specify size)

Notes:
- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
