Dimondek® 630 wall cladding
(specify thickness and coating)

Dimondek® 630 roofing (specify thickness and coating)

Continuous clip fixed with M6 x 25 Roofzip

Dimondek 630 lipped

Continuous clip fixed with M6 x 25 Roofzip

0.55mm Flashing fixed with M6 x 25 Roofzip to a Dimond thermal expansion flashing clip every 2nd pan.

Dimondek® 630 wall cladding (specify thickness and coating)

Notes:
- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
