Air seal

Maintain a 5mm gap around the window frame

Line of sill flashing below

Use sealant for very high wind zones & above

20mm thick cavity battens

Continuous clip fixed with M6 x 25 Roofzip

Dimondek® 630 wall cladding (specify thickness and coating)

Foam closure strip on top of cladding

0.55mm BMT end flashing with hem edge behind cladding to extend to ground or exit point

0.55mm BMT purpose made jamb flashing fixed to Dimond thermal expansion clip (specify coating)

Maintain a 5mm gap around the window frame

Notes:
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
- Where CCA or ACQ treated cavity battens are installed a barrier between the batten and the cladding is required.
