20mm thick cavity battens

6mm thick foam strip under cladding

0.55mm BMT purpose made flashing (specify coating)

200 mm min. lap 10 50 10 200 mm min. lap

8m max. sheet length

Climaseal coated self drilling M6 x 65 Roofzip fixed every second pan

Notes:
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
- Where CCA or ACQ treated cavity battens are installed a barrier between the batten and the cladding is required.
