Roofing underlay and netting shown dashed

Dimondclad Rib50 Cladding (specify thickness and coating)

Climaseal coated self drilling M6 x 65 Roofzip fixed every second pan

20mm thick cavity battens

Continuous cavity drainage closure strip

20 mm min. gap

200 mm min. lap

35 100mm min. lap

Notes:
- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
- Leave foam out if ventilation is required.
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.

Dimond hi-span steel purlin (specify size)
