Permanent wall cladding that's not easily removed

Building wrap shown dashed

Climaseal coated self drilling 12g x 35mm tek screw pan fixed

Notched flashing fixed to ribs with M6 x 65mm Roofzip every second rib

Dimond LT7® roofing (specify thickness and coating)

200 mm min. lap

35 75 mm min.

100 mm min.

100 mm min.

Dimond LT7 roofing stop ended

Dimond hi-span steel purlin (specify size)

Notes:
- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
