Gutter bracket

Soffit
Climaseal coated self drilling 14g x 75mm T17 screw rib fixed every stud
0.55mm flashing to cover 2 crests

Dimond LT7® wall cladding (specify thickness and coating)

Notes:
- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
