Take back tray to ground or exit point

Extend head flashing min. 25mm beyond jamb

End flashing

Head flashing extended and lapped over jamb flashing. Rivet and seal
Jamb flashing with hem edge vertically behind head flashing

Sill flashing. End of sill returned and scribed to cladding profile

Extend head flashing

Notes:
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
