200 mm min. lap

Profiled foam closure strip under cladding

Climaseal coated self drilling 12g x 50mm T17 screw pan fixed

Dimond LT7® wall cladding (specify thickness and coating)

0.55mm BMT purpose made flashing (specify coating)

20mm thick cavity battens

Notes:
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
- Where CCA or ACQ treated cavity battens are installed a barrier between the batten and the cladding is required.
