

Notes:
 - Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
 - These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.

Plot Date: 22 Nov 2018

Original Size A4

Styleline
Roof
 Wall - Roof Junction
