

- Notes:
- These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.
 - Where CCA or ACQ treated cavity battens are installed a barrier between the batten and the cladding is required.

Original Size A4

File:	dim_dd6_2210 Junction to Panel Cladding	
Issue:	01	Reference
Scale:	1 : 5	
Date:	28 November 2018
