

- Notes:
- Foam closure strip only required if bird or vermin proofing is required, or if in a high wind area, there is a risk of windblown moisture entering the building.
 - Leave foam out if ventilation is required.
 - These details are suitably fixed to allow for a theoretical thermal movement of up to 10mm. For thermal movement greater than this a clipping system should be considered.

Plot Date: 22 Nov 2018

Original Size A4

Styleline Wall

Horizontal Cavity Cladding - Wall/Roof Junction
